Melbourné's most comprehensive experience:

Discover Melbourne's Secret Penguin Colony with Penguin Waters Cruises...

Cruise down the Yarra River and out into Port Phillip Bay while enjoying a BBQ with wine and soft drink (included in ticket price).

See the city transform at sunset.

Four km from the mouth of the Yarra River lives Melbourne's colony of Little Penguins.

Up close penguin viewing is guaranteed and flash photography is permitted.

In 1956 a rock structure was built in Port Phillip Bay for the Olympic Games. These rocks have now become the home for a thriving colony of Little (Fairy) Penguins.

The colony was kept a secret until 1993 when Captain Noel Butcher* established Penguin Waters Cruises and gained sole permission to show you this colony of Little Penguins up close.

*(Captain in Port Phillip Bay Environmental Study)
